Art Unit: 1626

Receipt is acknowledged of the amendment filed October 20, 2005, which has been entered in the file.

Claims 15, 18 and 19 are objected to because of the following informalities: on line 17 of claim 15 "R4s" should be -R<sub>4</sub>s-. On line 8 of claim 18, R1s should be -R<sub>1</sub>s-. On line 4 of claim 19, "R4" should be -R<sub>4</sub>-. Appropriate correction is required.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 1626

Claims 15 to 22 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 to 3 of copending Application No. 10/669,414. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims overlap when in the instant application X is an aryl group and in application '414 Q in combination with  $-N=CN(R_1)-$  forms a 6-membered ring. The compounds of the copending application has the same utility as the instant application as dye-forming couplers. One of ordinary skill in the art would have been motivated to make the claimed compounds with the expectation that compounds useful as dye-forming couplers would be obtained..

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicant's arguments filed October 20, 2005 have been fully considered but they are not persuasive. Applicants ask that a Notice of Allowance be issued in the present case and the possible double patenting issues be dealt with in the other applications. The double patenting rejections over applications 10/125,548 and 10/679,466 have been withdrawn. However, application 10/669,414 was allowed on October 21, 2005. Thus

Art Unit: 1626

the double patenting cannot be raised in that application and must be dealt with in the instant application.

Claims 7 to 12 and 14 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
